

Mobile Ultrasounds

ON-SITE DIAGNOSTIC ULTRASOUNDS

We provide convenient on-site ultrasounds to clinics, medical groups, family physicians, OB/Gyns, FQHCs, and community clinics. Reports are read by board-certified radiologists and quickly delivered to the referring physician in 1 business day.

How It Works

TYPES OF STUDIES

General, OB/Gyn, NT, Small Parts & Breast

High-quality imaging and care by friendly, certified & experienced technologists provided to you in the comfort of your own office.

SET-UP

30 Minutes

Our sonographers arrive with portable digital ultrasound equipment and provide all necessary equipment and supplies needed. We simply require an empty room with exam table & desk to set-up.

HOW MANY PATIENTS?

2-3 studies per hour

We require a minimum of 8 studies but can perform upwards of 20 studies per day. Professional, experienced sonographers can perform ultrasounds at your facility any day of the week with our digital portable equipment. You can schedule us for half days or full days on a weekly, bi-weekly, or monthly basis.

REPORTS

Within 24 hours.

Our board certified radiologists provide reports to the referring physicians with 1 business day. Our sonographers & radiologists work efficiently to provide results promptly in case of abnormalities. Same day Stat reads available.

PRICING

We directly bill most insurances.

We bill directly for Medicare, Medi-Cal, Family Pact and PE exams. For insurances we cannot accept, the client may choose to be invoiced per study. Please email us for information regarding "bill client" option

Mobile Ultrasounds

SET-UP

LOCATION:

Indoors - must be ADA compliant and have parking space for staff to park vehicle
(wheelchair accessible)

SPACE REQUIREMENTS:

Clear & private 8x10ft ventilated space with exam table and desk area.

POWER REQUIREMENTS:

2 Regular 110v outlets
(We bring our own extension cords)

VOLUME

3 HRS (HALF DAY): 8-10 studies
6 HRS (FULL DAY): 20 studies

We request a patient list 3 days prior to the onsite visit in order to maintain short wait times in between patients

WHY ALINEA?

INCREASE PATIENT COMPLIANCE

Patients are comfortable with your staff and your office - Over 50% of patients do not fill orders for services outside the physician's office.

PATIENT RETENTION

Improved continuity of care results in high patient retention, satisfaction, & ultimately more referrals of patient's family and friends.

EXCEPTIONAL QUALITY CONTROL

We are radiologist owned and operated, resulting in all reads done under direct radiologist supervision. Physician consultations with our radiologist regarding abnormal results are available between 9am-6pm Mon-Fri (excepts holidays).

SHARE DIGITAL IMAGES

We provide FREE, high-quality images to OB patients' phones or email address for their enjoyment and share on digital media; a selling point for your clinic.

NO COST

Alinea provides all the advantages of having your own ultrasound suite without the overhead or liability.
